EONS' mission, vision and values

Mission

EONS is an umbrella organization providing leadership in all areas of cancer nursing, research, practice, continuing education, communications and advocacy for better recognition of cancer nursing across Europe. Our mission is to ensure that all people affected by cancer benefit from the care of highly educated, well-informed and competent cancer nurses.

Vision

Our vision is that cancer nursing will be recognized by the cancer community, national and European level policy makers, as a profession with specialized training and qualifications available across the continent. Working conditions for cancer nurses will be optimal, providing a commensurate financial income as well as protecting and promoting individual well-being. We anticipate that this will produce a relatable improvement in the health and clinical outcomes for people affected by cancer. Finally, we envisage that all our members will become confident and empowered cancer nurses operating as leaders in research, practice and education within multi-professional teams.

Values

The core strength of EONS comes from our members. We recognize the diverse aspects of nursing across Europe and strive for equality for all cancer nurses regardless of gender, race, sexual orientation or disability. The improvement of patient safety and better clinical outcomes for cancer patients and their families is central to our work. The society firmly believes in working in partnerships across sectors and professions who share our goals and values.
